(h) Reflects the adjustment to depreciation and amortization expense resulting from the fair value adjustment to Foxtel's historical fixed assets in the preliminary purchase price allocation, which resulted in a step-up in the value of such assets.

(i) Reflects the reversal of amortization expense included in News Corp's historical Statements of Operations from the Company's settlement of its pre-existing contractual arrangement between Foxtel and FOX SPORTS Australia, which resulted in a write-off of its channel distribution agreement intangible asset at the time of the Transaction.

(j) Represents the impact to equity losses of affiliates as a result of the Transaction, as if the Transaction occurred on July 1, 2016. Historically News Corp accounted for its investment in Foxtel under the equity method of accounting. As a result of the Transaction, Foxtel became a majority-owned subsidiary of the Company, and therefore, the impact of Foxtel on the Company's historical equity losses of affiliates was eliminated.

(k) In determining the tax rate to apply to our pro forma adjustments we used the Australian statutory rate of 30%, which is the jurisdiction in which the business operates. However, in certain instances, the effective tax rate applied to certain adjustments differs from the statutory rate primarily as a result of certain valuation allowances on deferred tax assets, based on the Company's historical tax profile in Australia.

(l) Represents the adjustment, as a result of the Transaction, to reflect the non-controlling interest of the combined company on a pro forma basis.
